INFORMATION GUIDE**

SPORTZiNG TENNiS

Sportzing Court Care Services has been supplying tennis products and servicing Australian tennis courts for over 25 years.

We have serviced over 25,000 tennis courts in tennis clubs, schools, resorts and private residences, and have over 5,000 customers.

Many of our loyal customers choose to service their courts every six to twelve months, which provides us with the opportunity to constantly monitor how various tennis products, brands and equipment last under the harsh Australian elements.

Our constant observation of failed tennis nets, tennis posts, winding units and umpire chairs has inspired us to design and manufacture many of our own products to ensure they last the distance.

Our tennis posts which have been manufactured in Australia are galvanised and coated with a 2-part epoxy coating which is more durable to prevent corrosion, our winders are manufactured from marine grade SAE 316 stainless steel, and our umpire chairs are lightweight aluminium for ease of movement and the prevention of rust stains on your valuable court.

We invite you to choose one our products and support an Australian owned and operated family business which was integral in the inception of synthetic grass court cleaning in Australia.

CHAMPIONSHIP PROFESSIONAL GRADE TENNIS NET - STANDARD SIZE COURT

This is a heavy duty professional tennis net, designed in Australia for the harsh Australian conditions.

Many tennis nets sold in Australia are poorly made and don't last.

SPECIFICATIONS

Dimensions – 1230mm wide x 750mm drop

4 rows double stitching on the white polyester headband.

Quality black braided 3mm knotted net, double mesh top 6 rows.

6mm polyester white headband with Sportzing logo.

Bottom and side bands heavy duty 6cm UV stabilised vinyl with 13mm fibreglass rods and reinforced corners.

PVC coated 6mm steel cable, stainless steel fittings.

CHAMPIONSHIP PROFESSIONAL GRADE TENNIS NET - HALF SIZE COURT

This is a heavy duty professional tennis net, designed in Australia for the harsh Australian conditions.

Many tennis nets sold in Australia are poorly made and don't last.

SPECIFICATIONS

Dimensions – 620mm wide x 750mm drop

4 rows double stitching on the white polyester headband.

Quality black braided 3mm knotted net, double mesh top 6 rows.

6mm polyester white headband with Sportzing logo.

Bottom and side bands heavy duty 6cm UV stabilised vinyl with 13mm fibreglass rods and reinforced corners.

PVC coated 6mm steel cable, stainless steel fittings.

3M JUNIOR PRACTICE NET – SUITABLE FOR COACHING JUNIOR TENNIS ENTHUSIASTS

Easy to assemble and disassemble, this is a lightweight, high quality 3m Junior coaching net.

Unique rubber 6 hold grip to lock net pieces in place when stowed away.

Powder coated black aluminium interlocking pieces.

Lightweight net with plastic headband and locking clip to ensure net is tight when erected.

Bright blue carry case with over shoulder strap.

NET ACCESSORIES

CENTRE STRAP WITH STAINLESS STEEL FITTINGS

Centre strap is made from polyester material and has a heavy duty stainless steel spring loaded fastener and adjustment clips.

The centre strap ensures the net stays at the correct height to abide by international rules and also to keep the net steady in windy conditions.

SPECIFICATIONS

Dimensions – To ensure the net stays at 914mm from the ground.

Made from UV stabilised polyester material

Heavy duty stainless steel spring loaded fastener and adjustment clips.

CENTRE STRAP SAND SPIKE – DESIGNED TO BE DRIVEN INTO A GRAVEL, ASPHALT OR SAND BASE

This is to be used where there is no solid concrete base to be bolted on to support the centre strap. The item is galvanised for lasting protection.

SPECIFICATIONS

Dimensions – Spike 12mm x 250mm long – closed hook to secure centre strap

Australian materials and Australian made.

CENTRE STRAP BASE PLATE – DESIGNED TO BE BOLTED INTO THE BASE

This is to be used where there is a pad or solid concrete base to be bolted on to. Product is powder coated black.

SPECIFICATIONS

Dimensions – Plate 80mm x 32mm x 6mm – closed hook to secure centre strap

Australian materials and Australian made.

POSTS

HEAVY DUTY TENNIS POST PAIR - SLEEVE

Designed to fit into a sleeve in the ground.

This is a heavy duty post pair designed and manufactured in Australia for the harsh Australian conditions. Our internal winders and post caps are marine grade SAE 316 stainless steel and our posts are galvanised 2.5mm thick 75mm x 75mm and are coated with industrial 2-part epoxy paint.

This gives a more durable finish than other finishes and unlike powder coating it can stand up to the corrosive sea air.

Dimensions – 75mm x 75mm x 5mm

HEAVY DUTY TENNIS POST PAIR - BOLTED

Designed to be bolted into the ground.

This is a heavy duty post pair designed and manufactured in Australia for the harsh Australian conditions. Our internal winders and post caps are marine grade SAE 316 stainless steel and our posts are galvanised 2.5mm thick 75mm x 75mm and are coated with industrial 2-part epoxy paint.

This gives a much more durable finish than other finishes and unlike powder coating it can stand up to the corrosive sea air.

Dimensions – Post 75mm x 75mm x 2.5mm

Base Plate – 200mm x 200mm x 10mm with 14mm holes

Dimensions – Post 75mm x 75mm x 2.5mm

Base Plate – 300mm x 300mm x 10mm with 16mm holes

SPECIFICATIONS - ALL POSTS

Australian designed and manufactured.

Internal winders and post caps are marine grade SAE 316 stainless steel.

Metal posts are galvanised and coated with industrial 2-part epoxy paint.

Top cap over winder has a wheel to stop the net cable pvc from stripping.

Winder has a removable and lockable winder to ensure that the net is not over tightened.

Each post has a steel tie system to enable the net cord to be easily tied in any position.

All screws are stainless steel.

HEAVY DUTY VOLLEYBALL POST PAIR

Designed to be fitted into a sleeve into the ground.

This is a heavy duty post pair designed and manufactured in Australia for the harsh Australian conditions. Our internal winders and post caps are marine grade SAE 316 stainless steel and our posts are galvanised 2.5mm thick 75mm x 75mm and are coated with industrial 2-part epoxy paint.

This gives a more durable finish than other finishes and unlike powder coating it can stand up to the corrosive sea air.

SPECIFICATIONS

Dimensions – Post 75mm x 75mm x 3mm – height to International Women's Volleyball 2.24m

Australian designed and manufactured.

Internal winders and post caps are marine grade SAE 316 stainless steel.

Metal posts are galvanised and coated in black powder coat.

Top cap over winder has a wheel to stop the net cable pvc from striping.

The side of the posts have lugs to tie back the net.

All screws are stainless steel.

POST HOLE PVC SLEEVES

Heavy duty PVC sleeves

Designed to be fitted into the post hole to prevent the hole collapsing and to create a snug fit for the Tennis Net Post.

SPECIFICATIONS

Dimensions – 550mm long x 100mm wide

Allow for easy removal of your tennis net post for replacement or maintenance.

Allows for easy conversion of making your tennis court multipurpose such as fitting Sportzting Volley ball posts.

Designed for use of 75mm x 75mm posts and will allow standard posts including Sportzting tennis posts to fit snugly into these sleeves.

POST HOLE FLANGES

Designed to fit to standard sleeved tennis posts

The flanges are designed to fit to standard 75mm x 75mm tennis posts.

When the post is installed in the sleeve in the ground, the flanges cover the gaps around the post to prevent debris, insects, small animals and snakes from entering the space.

Made from steel and powder coated for appearance and durability.

SPECIFICATIONS

Dimensions – To fit a standard 75mm x 75mm tennis post.

Australian designed and manufactured.

Made from steel.

Powder coated for appearance and durability.

Gives the base of the court a pleasant appearance.

POST HOLE COVERS

When your nets are down for alternative play to tennis, especially on a multipurpose court, prevent players tripping by using easy to install tennis post hole covers.

SPECIFICATIONS

Dimensions – To fit a standard 75mm x 75mm tennis post hole.

Manufactured in Australia from steel and powder coated for durability and appearance.

Sold as a pair, the covers fit snugly into the hole and flush with the mat.

COURT MAINTENANCE

AUSSIE CLEANSWEEP

Grooms your synthetic grass tennis court to perfection.

This item has been around for a long time and is used on many tennis courts in Australia to keep the court free of leaves and debris and also to groom the surface.

Sportzing has been using and selling the Aussie Cleansweep for over 15 years and recommend it for keeping your tennis court looking and playing great.

Simply drag the sweep around the court a few times a week. Suitable for synthetic grass, clay and asphalt courts.

SPECIFICATIONS

Dimensions – Length 2400mm x Width 700mm

Aluminium head.

Rubberised material mat.

3-year warranty.

SPORTZING SAND PUSH BROOM

Designed for synthetic grass courts.

Move sand and groom the mat.

As a company, Sportzing has been using the Aussie Cleansweep for many years as part of our servicing program for synthetic grass courts, and we are proud to make this broom available to our customers.

This item is constructed from solid steel and powder coated to give a protective and appealing appearance.

Can be used to groom the existing sand on the court to give a more constant even surface for play and also groom in new sand when applied.

SPECIFICATIONS

Dimensions – Length 1200mm

Australian designed and manufactured.

Sturdy welded steel frame.

Powder coated for appearance and durability.

Handle can be removed for storage.

Wheels for ease of use.

HARD COURT SQUEEGEE

Play on your court straight after rain.

The hard court squeegee is unlike many on the market, made from strong durable aluminium with wheels so you can easily move water off the court.

This will get you back onto the game after rain faster than any other method.

Ideal for resorts, tennis clubs, schools and residential courts.

SPECIFICATIONS

Dimensions – Length 1430mm x Width 200mm

Sturdy aluminium frame, 33mm handle, 40mm base.

Double rubber, replaceable base.

Handle can be removed for storage.

Wheels for ease of use.

UMPIRE CHAIR

DELUXE UMPIRE CHAIR

Light enough to be carried but strong and durable.

This is the Sportzng Tennis Deluxe Umpire Chair.

As a company that has serviced over 25,000 services on Australian courts, we have pretty much seen every umpire chair ever made, a vast majority of these are impossible to move and end up marking the court with rust stains.

We have developed this chair with this in mind. It is lightweight, strong, durable, will not rust and has a comfortable UV protected seat.

We have made the design so it can be inexpensive to post and easy to assemble.

SPECIFICATIONS

Dimensions – Base 1050mm x 1050mm – Height to seat – 1580mm

Australian designed and manufactured.

Sturdy Aluminium frame.

Black powder coat to frame.

Comfortable UV protected seat and back rest.

Easy to assemble.

Low postage due to the design.

Lightweight and easy to move

All bolts are stainless steel.

COACHING AND PLAY EQUIPMENT

LOBSTER Elite III

LOBSTER ELITE FREEDOM BALL MACHINE

Up to 50-degree lobs to practise overheads and speed up to 115kph.

The full corner-to-corner sweep of the Elite Freedom will challenge a wide range of players from advanced to beginners alike. Designed for maximum durability, its 15kg ergonomi-c design and oversized-wheels allow for easy transport, even with a full hopper of 150 balls. A 2-4 hour battery allows you the freedom to play anywhere at anytime.If you want additional oscillation features, find out how the Elite Two and Elite Three models may better fit your playing needs.

SPECIFICATIONS

Speed: 30km - 115km

Ball capacity: 150

Feed rate: 2-10 sec

Power: Battery

Court time: 2-4 Hours

Elevation: manual 0-50°

Weight: 15kg

Spin: NONE

Remote: Not Available

Fast charger: Not Available

Premium Fast charger: Optional

Warranty: 3 Yrs - unlimited

ALSO AVAILABLE:

LOBSTER ELITE LIBERTY BALL MACHINE

Unequalled spin control for a machine at this price point.

The Elite Liberty will produce ball speeds from 30 km/h up to 115 km/h challenging players of all skill levels. The Elite Liberty also offers unequalled spin control for a machine at this price point.

The ball spin can be adjusted for both topspin and backspin and at different levels. The large ball capacity and battery size allow extended play on the court.

The Liberty's oversized wheels and extended handle provides unequalled portability for players who are on the move.

Enjoy playing against advanced features such as full corner-to-corner random oscillation and up to 50-degree lobs to practice your overheads.

LOBSTER ELITE ONE BALL MACHINE

Challenge your forehand and backhand with random horizontal oscillation.

Designed for maximum durability, the battery-operated Elite One offers an unparalleled 4-8 hours' court time.

It's ergonomic design allows for easy transport with a full hopper. The Elite's 130 kph ground strokes, full corner to corner random oscillation, sky-high lobs and heavy spin will take your game to new levels.

Challenge your forehand and backhand with random horizontal oscillation.

LOBSTER ELITE TWO BALL MACHINE

Simulate match play with left, right, deep and short in a random pattern.

The Elite Two is in a class of its own with triple oscillation.

Experience match play with the only machine to combine both vertical and horizontal oscillation functions to throw balls throughout the entire court.

Imagine a machine that will challenge all of your strokes while strengthening your footwork and overall fitness.

LOBSTER ELITE THREE BALL MACHINE

Adjust the depth of narrow and wide two-line oscillation.

The Elite Three boldly surpasses features available on any portable tennis ball machines by offering a narrow and wide two-line drill feature.

Experience a machine that simulates match play while possessing the ability to adjust the depth of your two-line drill.

LOBSTER GRAND 4 BALL MACHINE

Adjust the depth of narrow and wide two-line oscillation.

The Grand IV is also equipped with three pre-programmed six shot drills that simulate the most popular styles of play: grinder, all courter, and power baseliner. Fully Random Oscillation with variable Speed & Spin.

The Elite Grand IV offers a revolutionary design that allows the machine to throw balls throughout the entire spectrum of the court mixing up speed, spin, trajectory and oscillation. This fully random technological advancement allows for the Grand IV to realistically simulate true match play, a feature that is unsurpassed by any portable tennis ball machine on the market.

LOBSTER GRAND 5 BALL MACHINE

Adjust the depth of narrow and wide two-line oscillation.

Grand 5 is equipped with 12 pre-programmed drills - Grinder, Powerbasliner, All Courter, Left, Moonballer, Slicer, Approach, Attack/Defend, and Forehand Plus, Beginner, Intermediate and Advance.

Custom edge technology allows you to programme shot locations, speed, spin and feed rate too.

LOBSTER GRAND 5 LE BALL MACHINE

Full programmability.

Grand 5 Limited Edition is equipped with 12 pre-programmed drills - Grinder, Powerbasliner, All Courter, Left, Moonballer, Slicer, Approach, Attack/Defend, and Forehand Plus, Beginner, Intermediate, Advance.

LOBSTER PHENOM BALL MACHINE

Club Series - Programmable Drills & Pre-Programmed Drills

Grand 5 Limited Edition is equipped with 12 pre-programmed drills - Grinder, Powerbasliner, All Courter, Left, Moonballer, Slicer, Approach, Attack/Defend, and Forehand Plus, Beginner, Intermediate, Advance.
